UNIVERSITY INFORMATION SYSTEM

University information system of Czech University of Life Sciences Prague allows the academic community, university staff and public to access a wide range of information. Many people have devoted much of their time and effort to help implement the system at the university. Therefore, we will truly appreciate if you direct any problems you encounter or comments you may have to the university system administrators. This way we will be able to help you or complement the information system with any relevant features. We recommend that you contact us on our e-mail address [Contact address](#).

Electronic study application to CULS - E-application register

Use this application to administer your e-applications to CULS in the running admission procedure. If you cannot find the faculty CULS where you would like to submit your e-application to, it means that the faculty does not offer the possibility to apply electronically.

For info about dates for submitting e-applications for the individual types of admission procedure see [here](#).

Completeness of e-applications

The following page contains the individual sections of the e-application that are subjected to a completeness check. In order to regard your e-application as complete and thus to accept it, it is vital that all these sections are complete. The sections subjected to a completeness check can be divided in two categories. The first category consists of the sections related to the applicant, i.e. to all submitted e-applications, and contains the following **Personal information** and **Applicant's addresses**. The second category consists of the sections related to the individual submitted e-applications and contains the following **E-application information** and **Payment information**.

Name of section	State of completeness of the section	Enter the sections
Personal information	!	➡
Applicant's addresses	!	➡

The following table shows the list of all your registered e-applications in the running admission procedures. The table contains information about the type of the admission procedures - the type of admission procedures corresponds to the type of study you are applying for - and the state of completeness of those sections related to the e-applications. To obtain details about the remittance of the administrative fee, click the link in **Paid** column. Use the links in **Enter** columns to add **information about the e-application**, or to obtain **information about payment** of the administrative fee for the particular e-application.

It is not possible to remove the e-applications from the register. Incomplete e-applications will be removed automatically after the period reserved for submitting e-applications ends.

E-applications not yet transferred

The following table shows the e-applications which have not yet been transferred among the complete e-applications. Do not worry if your e-applications are on the list. If all sections of your e-applications are complete, the transfer will soon be performed.

Since the administration fee for some of the e-applications to study at CULS has not been paid for, you may de-activate them. Deactivation is a reversible transaction. Once an e-application has been deactivated, it can be activated again. To deactivate an e-application, select it in the table above and click on the De-activate e-application button.
